

# What is Home Care?

## Home Care provides...

- ◆ Professional services, support and individual healthcare in the home setting.
- ◆ A Case Manager coordinates the Home Care services as ordered by the physician.
- ◆ The Home Care nurse maintains continuity of care between the hospital setting, clinics, physicians, and other health care resources.
- ◆ Clients and their families are helped to build knowledge and skills. The client and family actively participate in developing the plan of care.

## Staff Certifications

All of the Home Care staff are hospital employees with background checks and are licensed, certified and insured.
